NEW SPONSOR LABEL SIZE

■ THANK YOU FOR YOUR ORDER!

With pleasure we produced your personal backnumber and finally we sent it to you. When attaching the back number to your Judogi please follow the handling instructions in the booklet in order to comply with IJF regulations. We hope that your Backnumber will accompany you in all your future competitions for which we wish you the best of luck.

■ INSTRUCTIONS

Please take note of the sewing and care instructions in this book, so you do not harm the rules and you will enjoy your backnumber for a long time.

It is best to have your Backnumber sewed on by a saddler or tailor who has got an industrial sewing machine.

Please use strong and thick needles. Depending on how thick your Judogi is needles could also break.

It is essential to use white thread for sewing. Sew as close as possible along the outer edge of your backnumber and then as shown above.

Please also note that it is not permitted to change the Backnumber.

■ PLACEMENT

PLACE CENTRED

NOT ON A SLANT

NOT COVERED BY THE BELT

- ✓ horizontally adjusted in the central section
- ✓ at an exact distance of 3 cm from the bottom of the collar

- ✗ Not on a slant and not covered by the belt in any case.

Note: If you are wearing a little judo suit the distance from the collar to the Backnumber can be selected individually. Your belt should not cover the sponsor area.

STIPULATIONS FOR
IJF/EJU BACKNUMBERS

CARE INSTRUCTIONS

Our Backnumbers are
machine washable up to
60° C...

...and tumble dry as
well

... ironing at low
temperatures is
possible.

■ SELF-ADHESIVE STICKERS

The sponsor label or country label has to be attached to the space provided of the Backnumber. The surface must be 100% dry. The stickers are designed to be removable if the sticking time is not longer than 72 hrs.

Please make sure not to leave your sponsor label or country label on your Backnumber for longer than necessary, as this could make removal difficult. Remove immediately after the event!!! We do not assume any liability for damage to the backnumber or for adhesive residue on the backnumber.

No glue products can be additionally heated, because otherwise glue residues could occur.
